

# 2023

## Lessons

### Course structure

The courses are carefully designed to cover content, learn the necessary skills and develop long-term memory. A variety of material and assignments with detailed instructions are made available to students to work through in order to achieve this. Lessons are used to focus on tricky content, class discussion around any questions students may have, and working through past paper questions by topic from the start of the course to develop the necessary skills. Students are trained to use the mark schemes to mark their own work so that we can check that they do understand the skills required. Their marked work is then carefully moderated. This is a vital part of the learning process.

- Students are expected to complete and mark weekly work given to develop their skills and make progress through the course. Parents will be asked to assist in motivating students if they are not working consistently, and if their work ethic does not improve, they may be asked to forfeit their spot.
- Cameras and microphones are kept on during lessons to facilitate better teaching and learning through natural discussion between a maximum of 6 students per class.
- Lessons are recorded for the private use of EZ Learn students.

### Invoicing

Invoices are issued at the beginning of each month from January to November.

- EZ classes are invoiced at @ R1 150 per month and include weekly 45-min lessons with private recordings, Google Classroom access, monitoring of work with personal feedback and individual support.
- EZ Guided Classrooms are invoiced at @ R575 per month and include Google Classroom access, monitoring of work with personal feedback and individual support.
- Individual lessons @ R575 each may be booked for orientation before joining a class during the year, ad hoc where additional assistance is required or to supplement class lessons where additional assistance is needed.

### Holidays

Short 'brain breaks' are scheduled to fit a variety of school holidays for flexibility (see calendar below). No lessons will be held on public holidays. Additional holidays may be taken by students at their discretion. Please notify EZ Learn of dates so that individual work plans can be updated.
